ICR status: This is a request to renew the approval of an existing ICR, which is currently approved through November 30, 2018. EPA did not receive any comments in response to the previously provided 60-day public review opportunity (83 FR 43675, August 27, 2018) (FRL-9982-52). Under the PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the information collection activities that implement the statutory mandates in section 6(e) of the Toxic Substances Control Act (TSCA) related to polychlorinated biphenyls (PCBs), 15 U.S.C. 2605(e). Specifically, TSCA section 6(e)(1) directs EPA to regulate the marking and disposal of PCBs. Section 6(e)(2) bans the manufacturing, processing, distribution in commerce, and use of PCBs in other than a totally enclosed manner. Section 6(e)(3) establishes a process for obtaining exemptions from the prohibitions on the manufacture, processing, and distribution in commerce of PCBs. Implementing regulations have been codified in 40 CFR part 761, and include approximately 100 specific reporting, third-party reporting, and recordkeeping requirements. The regulations are intended to prevent the improper handling and disposal of PCBs and to minimize the exposure of human beings or the environment to PCBs.

Responses to the collection of information are mandatory (see 40 CFR part 761). Respondents may claim all or part of a response confidential. EPA will disclose information

that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Form Numbers: 7720-12 and 7710-53.

Respondents/affected entities: Entities potentially affected by this ICR are persons who currently possess PCB items, PCB-contaminated equipment or other PCB waste.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 87,190 (total).

Frequency of response: On occasion.

Total estimated burden: 681,407 hours (per year). Burden is defined at 5 CFR 1320.3(b)

Total estimated cost: \$30,374,118 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: This request reflects a decrease of 64,519 hours in the total estimated respondent burden from that currently in the OMB inventory. The changes in the total annual respondent reporting and recordkeeping burdens and costs are due to updates to the most current wage rate data and to revisions to the total number of respondents. The revisions to total number of respondents are the result of new data gathered for this ICR effort, updated Agency data regarding total numbers of regulated entities, and the overlapping coverage of the recently revised Universal Hazardous Waste Manifest ICR (OMB Control No. 2050-0039). The ICR supporting statement provides a detailed analysis of the change in burden estimate. This change is an adjustment.

Dated: November 16, 2018.

Director, Collection Strategies Division.
